

Certificate of Immunization

Note: This completed form must be mailed, delivered, or faxed to the following:

Student Health
Richard Bland College
11301 Johnson Road
Petersburg, VA 23805
804-863-1657 Fax

Student Name _____
Last First Middle

RBC ID _____ Date of Birth ____/____/____ Email _____

Daytime Phone (____) _____ Entering Semester/Year: Spring Fall 20____

PART I - Must be completed and signed by a licensed health professional on the reverse side.

A. Measles, Mumps, Rubella

- ____ I was born before January 1, 1957. I am considered immune.
OR
- MMR (Measles, Mumps, Rubella)
Two doses required: 1st Dose ____/____/____ **AND** 2nd Dose ____/____/____
OR all 3 of the following criteria are met:
- Measles (Rubeola)
Positive immune titer ____/____/____ **OR** two doses of individual rubeola vaccine ____/____/____ ____/____/____
Mumps
Positive immune titer ____/____/____ **OR** one dose of individual mumps vaccine ____/____/____
Rubella (German measles)
Positive immune titer ____/____/____ **OR** one dose of individual rubella vaccine ____/____/____

B. Tetanus- Diphtheria-Pertussis

(Primary series with DTaP, DTP, DT, or Td, and booster with Td or Tdap in the last 10 years.)

- Primary series of four doses with DTaP, DTP, DT, or Td:
#1. ____/____/____ #2. ____/____/____ #3. ____/____/____ #4. ____/____/____
- Booster: Tdap (preferred) to replace a single dose of Td for booster immunization at least 2-5 years since last dose of Td, depending on age of patient. ____/____/____
- Booster: Td within the last ten years ____/____/____

C. Poliomyelitis

- Primary Childhood Series - date completed: ____/____/____ **OR**
- Positive immune titer ____/____/____ **OR** one dose of IPV - Date ____/____/____

D. Hepatitis B

- Immunization (hepatitis B)
a. Dose #1 ____/____/____ b. Dose #2 ____/____/____ c. Dose #3 ____/____/____
OR
- Immunization (Combined Hepatitis A and B vaccine)
a. Dose #1 ____/____/____ b. Dose #2 ____/____/____ c. Dose #3 ____/____/____
OR
- Hepatitis B surface antibody Date ____/____/____
Results: Reactive _____ None-reactive _____
- I have received information on the Hepatitis B vaccination and DO NOT wish to be vaccinated
Signature (Parent or guardian if minor) _____ date: _____

Please return the completed form, all three pages, to Student Health.

E. Tuberculosis Screening (PPD) - See Part II below (must be completed by health care professional)

F. Meningococcal Vaccine

1. Vaccine received on ____/____/____ (date of vaccination) Menomune _____ Menactra _____
OR
2. Received the information on meningococcal vaccine and DO NOT wish to receive the meningococcal vaccine.

Signature: _____ Date: _____ (Student or if under 18, parent or legal representative)

*** PART II - Must be completed TUBERCULOSIS SCREENING**

The American College Health Association (ACHA) has published guidelines on tuberculosis screening of college and university students. Richard Bland College has adopted those guidelines based on their recommendations. For more information, visit www.acha.org or refer to the CDC's Core Curriculum on Tuberculosis available at state health departments or at the following website: www.cdc.gov/nchstp/tb/corecurr/.

1. Does the student have signs or symptoms of active TB disease? YES NO

If **NO**, proceed to question 2.

If **YES**, proceed with additional evaluation to exclude active TB disease including tuberculin skin testing, chest x-ray, and sputum evaluation as indicated.

2. Is the student a member of a high-risk group or is the student entering the health professions? (See footnote #1 below) YES NO

If **NO**, stop. **No further evaluation is needed at this time.**

If **YES**, place tuberculin skin test (Mantoux only; inject 0/1 ml of purified protein derivative [PPD] tuberculin containing 5 tuberculin units [TU] intradermally into the volar [inner] surface of the forearm). A history of BCG vaccination should not preclude testing of a member of a high-risk group. If PPD is not placed, a chest x-ray is required (see #4 to record x-ray result).

3. Tuberculin Skin Test (**must have been placed within the last 12 months.**)

Date Given ____/____/____ Date Read ____/____/____

Result: _____ (Record actual mm of induration, transverse diameter; if no induration, write "0")

Interpretation (based on mm in induration as well as risk factors): Positive Negative

4. Chest x-ray (required if tuberculin skin test is positive or if PPD has not been placed for any reason):

Date of chest x-ray: ____/____/____ Result: Normal Abnormal

¹Categories of high-risk students include those students who have arrived within the past five years from countries where TB is endemic. It is easier to identify countries of low rather than high TB prevalence. Therefore, students should undergo TB screening if they have arrived from countries EXCEPT those on the following list: Canada, Jamaica, Saint Kitts and Nevis, Saint Lucia (USA), Virgin Islands (USA), Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Italy, Liechtenstein, Luxembourg, Malta, Monaco, Netherlands, Norway, San Marino, Sweden, Switzerland, United Kingdom, American Samoa, Australia, or New Zealand. Other categories of high-risk students include those with HIV infection, who inject drugs, who have resided in, volunteered in, or worked in high-risk congregate settings such as prisons, nursing homes, hospitals, residential facilities for patients with AIDS, or homeless shelters; and those who have clinical conditions such as diabetes, chronic renal failure, leukemia or lymphomas, low body weight, gastrectomy and jejunioileal by-pass, chronic malabsorption syndromes, prolonged corticosteroid therapy (e.g. prednisone ≥ 15 mg/d for ≥ 1 month) or other immunosuppressive disorders.

RELIGIOUS EXEMPTION FOR ALL IMMUNIZATIONS

Section 23-7.5 of the Code of Virginia states "Any student shall be exempt from the immunization requirement who objects on the grounds that administration of immunizing agents conflicts with his/her religious tenets or practice, unless an emergency or epidemic of disease has been declared by the Board of Health." Such students must submit a "Certification of Religious Exemption" (form HWC4), which may be obtained by contacting Student Health.

STUDENT HEALTH USE ONLY
